PROJECT

Spider-Man (Java)

January-May 2019

A Spider-Man game, that the player try to escape from different types of obstacles while shooting webs till they reach the goal.

- Make a mock up for the entire game
- Develop intriguing features on the character and obstacles to innovate the game by using object-oriented notions
- Create a saving functionality in order to save each level that the player made with all the obstacles

Scheduler (Java)

June 2021

Schedule tasks with a name, date, time and a small description.

- Create a listener between the adding task frame and the summary task frame
- Design the applicatio

Activities
